KUNAL SHINDE

Kunalms203@gmail.com | +91 9527928965 | linkedin.com/kunal-shinde2003 | Github.com/kunalms203

SKILLS

- Languages: HTML, CSS, JavaScript, Python, Java, C++
- Front-end: React Js, Redux, Tailwind CSS, Bootstrap
- Backend: Node.js, Express, Django, RESTful API
- Databases: MySQL, MongoDB, PostgreSQL
- Other : Git, Github

EDUCATION

Sahyadri valley college of engineering, Pune

B.E, Artificial Intelligence & Machine Learning

2019- 2022

Link

2022 - 2025

Siddhant college of engineering, pune

Diploma in Computer Engineering

EXPERIENCE

Logion Solutions Feb 2025 – April 2025

Full Stack Developer Intern

- Built a backend admin dashboard for product management, streamlining inventory updates and reducing manual data entry by 50%.
 - Developed and deployed Next.js-based MERN stack applications, improving frontend performance by 30% through optimized API calls and server-side rendering.
 - Designed and optimized the frontend of an interior and commercial design platform, enhancing UI responsiveness and reducing
 - load times by 40%.
 - Translated high-fidelity Figma designs into pixel-perfect, responsive UIs using React.js, improving design accuracy and user experience by 100%.

PROJECTS

AI-Integrated Real-Time Chat Application

Tech Stack: React.js, Tailwind CSS, MongoDB, Node.js, DeepSeek AI, JavaScript

• Embedded DeepSeek AI to enhance user interactions with AI-driven responses, sentiment analysis, and contextual understanding, resulting in a 35% improvement in response accuracy.

- Secured user data with end-to-end encryption and JWT authentication, preventing unauthorized access entirely.
- Maximized uptime to 99.9% by utilizing MongoDB Atlas for data persistence and WebSocket for real-time messaging.

Property Rental Site Link

Tech Stack: JavaScript, Node.js, Express, MongoDB, bootstrap, CSS, EJS

- Simplifies Revolutionized the approach to property management with innovative solutions that cut downtime for updating listings and information by approximately 30%, enabling faster response times for both owners and guests.
- Verifies user identities through Passport.js authentication, achieving a 100% success rate in preventing, unauthorized access.
- Boosted the efficiency of online booking processes through strategic optimization techniques, achieving a 25% success rate in converting inquiries into confirmed reservations for improved revenue generation.

Online Code Editor Link

Tech Stack: React Js, JavaScript, Framer Motion

- Engineered the front end with React, creating a responsive and intuitive user interface that enhanced user engagement by 25%.
- Integrated real-time feedback, syntax highlighting and error detection into an intuitive user interface, boosting user satisfaction by 30% and reducing debugging time by 20% for both beginners and seasoned programmers.
- Boosted efficiency by utilizing React.js for streamlined rendering and virtual DOM management, resulting in a 40% gain in application performance and a 25% increase in scalability.

ACHIEVEMENTS

- Participated in the "Better Roads for Tomorrow" **Hackathon**, developing innovative solutions for infrastructure challenges and collaborating with a diverse team to propose a scalable, technology-driven approach for road safety and maintenance.
- Earned certification in Full Stack Web Development, validating expertise in MERN stack technologies and achieving a 20% improvement in project delivery time across 6 completed academic projects.

CERTIFICATIONS

- The Complete 2024 Web Development BootCamp by Udemy.
- SQL and Relational Databases by IBM.
